E-Safety Advice for Parents & Guardians...

It's important to talk to your child/children openly about the dangers of using the Internet. If you're not sure where to start take a look at the below conversation starter suggestions...

- Ask your child/children to tell you about the sites they like to visit and what they enjoy doing online.
- Ask them about how they stay safe online.
- Ask them if they know where to go for help, where to find the safety advice, privacy settings and how to report or block on the services they use.
